Social Media in Healthcare: Opportunities and Challenges

Both medical professionals and patients must be able to use digital technologies in their work and communications properly. This free online course provides practical guidance to healthcare providers, patients and researchers. It is an essential course for anyone who is looking into the opportunities and challenges of using social media in healthcare, including as a mass communication tool during infectious disease epidemics.

Organization: University of Liverpool

Duration: 5 weeks

Certificate available

Fundamentos de la Seguridad del Paciente

La Seguridad del Paciente, también llamada Seguridad Clínica es un elemento esencial en la gestión de los servicios sanitarios. En la actualidad la asistencia sanitaria es cada día más efectiva pero también más compleja, lo que ha convertido la seguridad del paciente en una de las dimensiones de la calidad ciudadanas, como valor tanto por los ciudadanos, como por los profesionales y gestores de los servicios sanitarios.

Organización: Universidad de Cantabria
